

Professional Land Management (PLM) Certificate Program

MODULE 1: INTRODUCTION TO LAND MANAGEMENT PRACTICES

Course conducted in April and October.

Instructor	Alyce Hoge , J.D., CPLTA, CDOA, AAPL ahoge@landtraining.net 832.298.7791
Overview	Introduction to Land Management practices introduces students to the laws and principles that govern the work of a land professional. The course emphasizes knowledge of the oil and gas industry as well as an understanding of the various laws that impact a land professional including Real Property Law and Louisiana law. The course also introduces students to the basics of land work including a review of the American Association of Professional Landman (AAPL) Code of Ethics. The course concludes with a history of Legal Descriptions and Land Measurements including how to plot legal descriptions in a township, range, and section. Finally, Calculations are offered in each Module. In Module 1, we cover calculations of acreage in legal descriptions.
Text	<u>American Association of Professional Landman (AAPL) Land Reference Guide</u>
Objective	By the end of Module 1, students will be able to: <ul style="list-style-type: none">• Understand the role, duties, and qualifications of a landman• Identify the Canons of Ethics of the AAPL, its purpose, and impact• Evaluate the benefits of Membership in the AAPL• Recognize and distinguish the various AAPL certifications and exams• Understand the Real Property Laws of the U.S.• Define the 5 Steps of Petroleum• Understand the History of the U.S. Land Survey Systems• Plot acreage using section, township and range in the Congressional Survey System• Calculate acreage in various property descriptions
